No apologies- I am just trying to figure out what to do. I will go the separate doc way. BTW here is some of what I did yesterday- I will try to incorporate them into a version of version 19.

Make your edits in a separate document and send them to me. That is the only way I can see to get your comments. We didn't see you in the document yesterday, sorry.

Debra

Debra- Please advise on what I should do. I spent a couple of hours making edits yesterday that are not appearing in version 19 (even non-controversial ones). I have just spent the last hour struggling with trying to re-insert those edits- and my word keeps crashing. None of the edits I re-inserted into version 19 are included. And I only have an hour left to work on this today.

Any ideas??

I believe we did see your earlier comments. We have had a number of versions since then so I am not surprised your placeholder isn't there. The package is very different at this point and a number of things have been moved around and/or removed. Debra

Debra- It seems like my comments in version 18 didn't come thru- or maybe you guys just over-rode them. Can you let me know? That will say me some time now with version 19. I had commented up thru page 40 I think.
